

TABLE OF CONTENTS

Preface.....	iii
Disclosure of Potential Conflicts of Interest.....	iv
Continuing Pharmacy Education and Program Instructions.....	v

Cardiology Care I.....	1
Faculty Panel.....	3

UPDATE ON THE THERAPEUTIC MANAGEMENT OF HYPERTENSION

By Karen J. McConnell, Pharm.D., FCCP, BCPS (AQ Cardiology); and Sheila L. Stadler, Pharm.D., BCPS (AQ Cardiology)

Learning Objectives.....	10
Baseline Knowledge Statements.....	10
Additional Readings.....	10
Epidemiology.....	11
International Guidelines.....	11
Uncomplicated HTN.....	11
Abbreviations in This Chapter.....	11
Concomitant Disease States.....	15
HTN in Special Populations.....	18
Resistant HTN.....	19
Ambulatory Measurement.....	24
Quality Metrics.....	25
References.....	25
Self-Assessment Questions.....	29

NEW THERAPIES IN DYSLIPIDEMIA

By Rebecca J. Cheung, Pharm.D., BCPS (AQ Cardiology); and Eric K. Gupta, Pharm.D., BCPS, CLS, FNLA, FCPA

Learning Objectives.....	34
Introduction.....	34
Baseline Knowledge Statements.....	34
Additional Readings.....	34
Pathophysiology.....	35
Abbreviations in This Chapter.....	35
Treatment.....	36
Quality Patient Care.....	38
Special Populations.....	48
Pharmacist Intervention.....	49
References.....	52
Self-Assessment Questions.....	57

SECONDARY PREVENTION OF CORONARY ARTERY DISEASE

By Andrew J. Smith, Pharm.D., BCPS (AQ Cardiology); and Lauren E. Odum, Pharm.D., BCPS

Learning Objectives.....	62
Baseline Knowledge Statements.....	62
Additional Readings.....	62
Introduction.....	63
Treatment.....	63

Abbreviations in This Chapter.....	63
References.....	78
Self-Assessment Questions.....	82

PERIPHERAL ARTERIAL DISEASE

By Kristin Watson, Pharm.D., BCPS (AQ Cardiology); and Kathleen J. Pincus, Pharm.D., BCPS

Learning Objectives (A).....	85
Introduction.....	85
Baseline Knowledge Statements.....	85
Additional Readings.....	85
Abbreviations in This Chapter.....	86
Patient Presentation.....	86
Treatment.....	89
Monitoring.....	99
Patient Education.....	99
References.....	100
Self-Assessment Questions.....	103
Classifications of Recommendations.....	107

Cardiology Care II.....	108
Faculty Panel.....	110

ATRIAL ARRHYTHMIAS

By Jessica J. Tilton, Pharm.D., BCACP; and Melissa R. Robinson, M.D., FHRS

Learning Objectives.....	115
Introduction.....	115
Baseline Knowledge Statements.....	115
Additional Readings.....	115
Abbreviations in This Chapter.....	116
Mechanisms of Arrhythmia.....	116
Diagnostic Evaluation.....	116
Atrial Arrhythmia Classification.....	117
References.....	140
Self-Assessment Questions.....	142

STROKE PREVENTION IN ATRIAL FIBRILLATION

By Mary H. Parker, Pharm.D., BCPS (AQ Cardiology)

Learning Objectives.....	146
Introduction.....	146
Baseline Knowledge Statements.....	146
Additional Readings.....	146
Abbreviations in This Chapter.....	147
Tools for Risk Stratification in Direct Patient Care.....	148
Pharmacotherapy.....	149
Clinical Guidelines on Antithrombotic Therapy in AF/AFL.....	155
Current Challenges.....	157
Patient Education and Quality Improvement Efforts.....	160
References.....	160
Self-Assessment Questions.....	165

VENOUS THROMBOEMBOLISM

By Sara R. Vazquez, Pharm.D., BCPS, CACP

Learning Objectives	168
Introduction	168
Oral Anticoagulation Therapy	168
Baseline Knowledge Statements	168
Additional Readings	168
Abbreviations in This Chapter	169
Treatment of Unusual Site Venous Thromboses	184
Chronic Complications of VTE	187
Conclusion	188
References	189
Self-Assessment Questions	191

Cardiology Care III	195
Faculty Panel	197

HEART FAILURE

*By Tien M.H. Ng, Pharm.D., FCCP, BCPS (AQ Cardiology); and
Kimberly Ackerbauer, Pharm.D., BCPS*

Learning Objectives	202
Introduction	202
Baseline Knowledge Statements	202
Additional Readings	202
Classification	203
Abbreviations in This Chapter	203
Clinical Assessment	204
Management	206
Organization of Outpatient Management	217
References	217
Self-Assessment Questions	221

PHARMACOTHERAPY CONSIDERATIONS BEFORE AND AFTER CARDIAC SURGERY

*By Douglas L. Jennings, Pharm.D., AACC, BCPS (AQ Cardiology);
and Christopher R. Ensor, Pharm.D., BCPS (AQ Cardiology)*

Learning Objectives	224
Introduction	224
Baseline Knowledge Statements	224
Additional Readings	224
Abbreviations in This Chapter	225
Preparing the Patient for Surgery	226
Postoperative Care After Coronary Revascularization	228
Postoperative Care After Valve Replacement Surgery	229
Postoperative Care After MCS Device Implantation	231
Postoperative Management After Cardiac Transplantation	234
References	238
Self-Assessment Questions	241

CLINICAL PHARMACY SERVICES IN CARDIOLOGY

By Sarah L. Anderson, Pharm.D., BCPS

Learning Objectives	245
Introduction	245

Baseline Knowledge Statements	245
Additional Readings	245
Abbreviations in This Chapter	246
Clinical Pharmacy Services in Ambulatory Care Cardiology	246
Conducting a Needs Assessment	249
Development and Implementation	251
Measuring Success	257
Requirements for the Clinical Pharmacy Specialist	260
References	262
Self-Assessment Questions	265
