

Target Audience and Program Goals

The Oncology Pharmacy Specialty Recertification Home Study Syllabus is designed to help board-certified oncology pharmacy practitioners who are seeking reaccreditation hours to maintain their Board of Pharmacy Specialties (BPS) Board Certification. The program goals are:

- Update oncology pharmacists on the latest treatment and supportive care options for cancer patients.
- Familiarize oncology pharmacists with the current literature in oncology.

Additional instructions

The participant must be able to correctly answer the questions based upon their interpretation of the article, as well as “baseline oncology knowledge and/or easily retrievable information.” For purposes of the Home Study Syllabus, “baseline oncology knowledge and/or easily retrievable information” is defined as product labeling and well-established clinical guidelines.
