

# TABLE OF CONTENTS

## Book 3

---

Preface .....	i
Editorial Board .....	ii
Book 3 Panel .....	iii
Continuing Education and Program Evaluation Instructions .....	viii
Roles of ACCP and BPS .....	ix

## Psychiatry I

---

MOOD DISORDERS: BIPOLAR AND MAJOR DEPRESSIVE DISORDERS	
Learning Objectives .....	1
Depressive Disorder .....	1
Epidemiology .....	1
Economic Burden .....	2
Pathophysiology .....	2
Diagnostic Criteria .....	3
Major Depressive Disorder .....	3
Dysthymic Disorder .....	4
Depressive Disorder, Not Otherwise Specified .....	4
Episode or Course Specifiers .....	4
Assessment .....	5
Hamilton Rating Scale for Depression .....	6
Montgomery-Asberg Depression Rating Scale .....	6
Beck Depression Inventory .....	6
Quick Inventory of Depressive Symptoms-Self-Report .....	6
Clinical Global Impressions .....	6
Pharmacotherapy of Depression .....	6
Choosing an Antidepressant Drug .....	7
Predictors of Response .....	7
Treatment Response .....	7

Selective Serotonin Reuptake Inhibitors .....	9
Pharmacokinetics .....	10
Dosing .....	10
Drug Interactions .....	11
Adverse Effects .....	12
Venlafaxine .....	13
Pharmacokinetics .....	13
Dosing .....	13
Drug Interactions .....	14
Adverse Effects .....	14
Mirtazapine .....	14
Pharmacokinetics .....	14
Dosing .....	14
Drug Interactions .....	15
Adverse Effects .....	15
Bupropion .....	15
Pharmacokinetics .....	15
Dosing .....	15
Drug Interactions .....	15
Adverse Effects .....	15
Nefazodone .....	16
Pharmacokinetics .....	16
Dosing .....	16
Drug Interactions .....	16
Adverse Effects .....	16
Tricyclic Antidepressants .....	16
Pharmacokinetics .....	17
Dosing .....	17
Serum Concentrations .....	17
Adverse Effects .....	17
Toxicity .....	18
Monoamine Oxidase Inhibitors .....	18
Pharmacokinetics .....	18
Dosing .....	19
Drug Interactions .....	19
Adverse Effects .....	19
Over-the-counter Dietary Supplements .....	20
Augmentation Agents .....	21
Lithium .....	21

Thyroid Hormone	21
Buspirone	22
Pindolol	22
Atypical Antipsychotic Drugs	22
Psychostimulant Drugs	22
Estrogen	23
Combination Pharmacotherapy	23
Non-pharmacological Therapies	24
Electroconvulsive Therapy	24
Repetitive Transcranial Magnetic Stimulation	25
Phototherapy	25
Patient Counseling	25
Bipolar Disorder	26
Epidemiology	26
Economic Burden	26
Pathophysiology	26
Diagnostic Criteria	26
Bipolar Spectrum	26
Episode Qualifiers	27
Course of Illness	27
Assessments	27
Young Mania Rating Scale	27
Goals of Treatment	27
Pharmacotherapy	27
Treatment Response	27
Treatment of Acute Mania	28
Lithium	28
Indications	28
Lithium Pretreatment Workup	30
Pharmacokinetics/Dosing	30
Drug Interactions	30
Adverse Effects	30
Toxicity	31
Teratogenicity and Fetal Toxicity	31
Valproic Acid	31
Indication	31
Valproate Pretreatment Workup	31
Pharmacokinetics/Dosing	32
Drug Interactions	32
Adverse Effects	32
Toxicity	32
Teratogenicity	32
Carbamazepine	33
Indications	33
Carbamazepine Pretreatment Workup	33
Pharmacokinetics/Dosing	33
Drug Interactions	33
Adverse Effects	33
Toxicity	34
Teratogenicity	34
Oxcarbazepine	34
Lamotrigine	34
Pharmacokinetics/Dosing	34
Drug Interactions	35
Adverse Events	35
Other Antiepileptic Drugs	35
Atypical Antipsychotic Drugs	35
Olanzapine	35
Risperidone, Quetiapine, and Aripiprazole	36
Bipolar Depression	36
Pharmacotherapy	36
Lithium	36
Lamotrigine	36
Other Mood Stabilizer Options	36
Antidepressants	36
Mood Stabilizer Combinations	37
Difficulties in Affective Disorder Research	37
Documentation of the Pharmacotherapeutic Plan	37
Patient Counseling	37
Conclusion	38
Annotated Bibliography	39
<b>Self-Assessment Questions</b>	<b>41</b>
<b>SCHIZOPHRENIA AND OTHER PSYCHOSES</b>	
Learning Objectives	45
Introduction	45
Pathophysiology of Schizophrenia	45
Definition and Diagnostic Criteria	45
Positive and Negative Symptoms	46
Differential Diagnosis	46
Subtypes of Schizophrenia	47
Epidemiology	47
Proposed Etiology	47
Course of Illness	47
Consequences of Schizophrenia	48
Treatment Goals	48
Rating Scales	48
Pharmacotherapy	48
Typical Antipsychotic Drugs	48
Proposed Mechanism of Action	48
Classification/Pharmacology	48
Dosage Forms and Pharmacokinetics	49
Adverse Effects	50
Antihistaminergic Effects	50
Anticholinergic Effects	50
Cardiovascular Effects	50
Endocrinological Effects	50
Extrapyramidal Side Effects and Tardive	
Syndromes	50
Acute Dystonia	50
Akathisia	51
Pseudoparkinsonism	51
Tardive Dyskinesia	52
Neuroleptic Malignant Syndrome	52
Seizures	52
Atypical Antipsychotic Drugs	52
Differences from Typical Antipsychotic Drugs	52
Clozapine	53
Indications	53
Pharmacology	53
Pharmacokinetics	53
Dosing and Dosage Forms	53

Efficacy .....	53
Adverse Effects .....	53
Cautions and Contraindications .....	54
Drug Interactions .....	55
Risperidone .....	55
Pharmacology .....	55
Pharmacokinetics .....	55
Dosing and Dosage Forms .....	55
Efficacy .....	55
Adverse Effects .....	56
Extrapyramidal Side Effects of Risperidone .....	56
Cautions and Contraindications .....	56
Drug Interactions .....	56
Olanzapine .....	56
Indications .....	56
Pharmacology .....	56
Pharmacokinetics .....	56
Dosing and Dosage Forms .....	56
Efficacy .....	56
Adverse Effects .....	56
Cautions and Contraindications .....	56
Drug Interactions .....	57
Quetiapine .....	57
Pharmacology .....	57
Pharmacokinetics .....	57
Dosing and Dosage Forms .....	57
Efficacy .....	57
Adverse Effects .....	57
Cautions and Contraindications .....	57
Drug Interactions .....	57
Ziprasidone .....	57
Pharmacology .....	57
Pharmacokinetics .....	57
Dosing and Dosage Forms .....	58
Efficacy .....	58
Adverse Effects .....	58
Cautions and Contraindications .....	58
Drug Interactions .....	58
Aripiprazole .....	58
Pharmacology .....	58
Pharmacokinetics .....	58
Dosing and Dosage Forms .....	59
Efficacy .....	59
Adverse Effects .....	59
Cautions and Contraindications .....	59
Drug Interactions .....	59
Comparison of Atypical Antipsychotic Drugs .....	59
Efficacy .....	59
Adverse Effects .....	60
Extrapyramidal Side Effects .....	60
Weight Gain .....	60
Glucose Dysregulation .....	60
Elevated Triglyceride Concentrations .....	60
Cardiac Conduction Abnormalities .....	60
Treatment Considerations .....	61
Optimal Choice for Individual Patients .....	61
Algorithms and Switching Strategies .....	61
Polypharmacy Pros and Cons .....	61
Pharmacoeconomics Considerations .....	63
Treatment of Specific Populations or Symptom Domains .....	63
Refractory Patients .....	63
Pregnancy and Nursing Women .....	63
Comorbid Substance Abuse .....	63
Cognitive Symptoms .....	64
Patient Education .....	64
Conclusion .....	64
Annotated Bibliography .....	64
<b>Self-Assessment Questions .....</b>	<b>67</b>

---

<b>Psychiatry II</b>	
<b>POST-TRAUMATIC STRESS DISORDER</b>	
Learning Objectives .....	73
Introduction .....	73
Epidemiology .....	73
Clinical Presentation .....	73
Diagnosis .....	74
Prognosis .....	75
Pathophysiology .....	75
Assessment Measures .....	76
Therapeutic Approaches .....	76
Psychotherapeutic Treatment .....	76
Pharmacotherapy .....	77
Antidepressants .....	77
Monoamine Oxidase Inhibitors .....	77
Tricyclic Antidepressants .....	77
Selective Serotonin Reuptake Inhibitors .....	77
Acute Treatment .....	77
Paroxetine .....	78
Fluoxetine .....	78
Continuation Treatment .....	78
Relapse Prevention .....	78
Quality of Life .....	78
Other SSRIs .....	78
Bupropion .....	78
Mirtazapine .....	78
Venlafaxine .....	78
Antidiadrenergic Drugs .....	78
Antipsychotic Drugs .....	79
Anxiolytics .....	79
Benzodiazepines .....	79
Buspirone .....	79
Cyproheptadine .....	79
Mood Stabilizers .....	80
Carbamazepine .....	80
Divalproex Sodium .....	80
Implementing a Therapeutic Plan .....	80
Choice of Agent .....	80
Time to Response .....	80
Expected Outcome .....	81

Adjunctive Therapy .....	81
Pharmacoeconomic Considerations .....	81
Research Needs .....	83
Patient Education .....	83
Annotated Bibliography .....	84
<b>Self-Assessment Questions .....</b>	<b>87</b>
 BORDERLINE PERSONALITY DISORDER	
Learning Objectives .....	93
Introduction .....	93
Characteristics of BPD .....	94
Epidemiology .....	94
Symptoms .....	94
Symptom Categories .....	95
Assessment (Research/Clinical) .....	97
Childhood Antecedents .....	98
Suicide .....	99
Psychobiology .....	99
Amygdala: Abnormal Functioning .....	100
Developmental Traumatology .....	100
Low Serotonergic Neurotransmission .....	100
Cerebrospinal Fluid Metabolites .....	100
Hypothalamic-pituitary-adrenal Axis .....	100
Dexamethasone Suppression Test .....	100
Sleep Electroencephalogram .....	100
Treatment Guidelines for BPD .....	101
Psychotherapy .....	101
Pharmacotherapy .....	102
Antidepressants: Affective Dysregulation	
Symptoms .....	103
Selective Serotonin Reuptake Inhibitors .....	103
Tricyclic Antidepressants .....	103
Monoamine Oxidase Inhibitors .....	104
Dual 5-HT and Norepinephrine Reuptake Inhibitors .....	105
Mood Stabilizers: Affective Dysregulation	
Symptoms .....	105
Neuroleptics .....	112
Anxiolytics .....	113
Therapeutic Alternatives .....	113
Omega-3 Fatty Acid .....	113
Naltrexone .....	114
Patient Education .....	114
Socioeconomic Considerations .....	114
Psychosocial Aspects .....	114
Economic Considerations .....	115
Conclusion .....	115
Annotated Bibliography .....	116
<b>Self-Assessment Questions .....</b>	<b>119</b>

## Psychiatry III

---

### GERIATRIC PSYCHIATRY

Learning Objectives .....	127
Introduction .....	127

Importance of Geriatric Psychiatry .....	127
Definitions .....	128
Chronic Illnesses and Comorbidities .....	128
Age-related Changes .....	129
Geriatric Brain Function .....	129
Drug Handling: Pharmacokinetics .....	129
Absorption .....	129
Distribution .....	129
Renal Clearance .....	129
Hepatic Clearance .....	130
Drug Responsiveness: Pharmacodynamics .....	130
Receptor Influence .....	130
Homeostatic Mechanisms .....	130
Adherence Issues .....	131
Disordered Behaviors .....	131
Delirium .....	131
Dementia .....	133
Diagnosis .....	133
Screening Tools .....	134
Treatment .....	134
Non-pharmacological Intervention Strategies .....	134
Pharmacological Treatment Strategies .....	135
Antipsychotic Drugs .....	135
Clozapine .....	135
Risperidone .....	136
Olanzapine .....	136
Quetiapine .....	136
Ziprasidone .....	137
Aripiprazole .....	137
Adverse Effects and Concerns with	
Antipsychotic Drugs .....	137
Movement Disorders .....	137
Dystonia .....	138
Akathisia .....	138
Parkinsonism .....	138
Tardive Dyskinesia .....	138
Orthostasis and Falls .....	139
Anticholinergic and Antihistaminic Effects .....	139
Weight Gain .....	139
Type 2 Diabetes Mellitus .....	140
Cerebrovascular Events .....	140
Ongoing BPSD Clinical Trials with	
Antipsychotic Drugs .....	140
Antipsychotic Drug Discontinuation .....	141
Alternatives to Antipsychotic Drugs .....	141
Benzodiazepines .....	141
Buspirone .....	141
Mood Stabilizers .....	141
Carbamazepine .....	141
Divalproex Sodium .....	141
Gabapentin .....	142
Cholinesterase Inhibitors .....	142
Antidepressants .....	142
Schizophrenia .....	143
Early-onset versus Late-onset Disease .....	143
Behavioral and Psychological Symptoms of	

Dementia Versus Schizophrenia Symptoms .....	143
Treatment Issues .....	143
Bipolar Disorder .....	144
Treatment .....	144
Lithium .....	145
Anticonvulsants .....	145
Antipsychotic Drugs .....	145
Antidepressants .....	145
Combination Therapy .....	145
Other .....	145
Psychosocial Therapy .....	145
Alcohol Abuse .....	146
Attention-deficit Hyperactivity Disorder .....	146
Depression .....	146
Epidemiology .....	146
Depression and Outcomes .....	147
Diagnosis .....	147
General Issues and Symptomatology .....	147
Screening and Diagnostic Tools .....	147
Diagnostic Issues: Life Events and Underdiagnosis .....	147
Depression and Dementia .....	148
Diagnostic Issues .....	148
Pseudodementia .....	148
Depression in Established Dementia .....	148
Drug-induced Depression .....	148
Depression and Functioning .....	148
Depression and Medical Illness .....	148
Treatment of Geriatric Depression .....	149
General Points .....	149
Heterocyclic Antidepressants .....	149
Tricyclic Antidepressants .....	149
Venlafaxine .....	149
Monoamine Oxidase Inhibitors .....	150
Selective Serotonin Reuptake Inhibitors .....	150
General Points .....	150
Citalopram and Escitalopram .....	150
Fluoxetine .....	150
Paroxetine .....	151
Sertraline .....	151
Other Atypical Antidepressants .....	151
Bupropion .....	151
Mirtazapine .....	151
Nefazodone .....	151
Psychomotor Stimulants .....	151
Treatment Duration .....	152
Treatment of Dysthymia or Minor Depression .....	152
Psychotic Depression .....	152
Augmentation Strategies .....	152
Substitution .....	152
Patient Education .....	153
Anxiety .....	153
Prevalence .....	153
Differential Diagnosis .....	153
Treatment of Anxiety States .....	153
General Points .....	153
Benzodiazepines .....	153
Central Nervous System Depressants .....	154
Buspirone .....	154
β-Adrenergic Antagonists .....	154
Antidepressants .....	154
Sedating Antihistamines .....	154
Antipsychotic Drugs .....	154
Non-pharmacological Therapies .....	155
Patient Follow-up .....	155
Sleep Disorders .....	155
Characteristics, Epidemiology, and Effect on Outcomes .....	155
Non-pharmacological Therapy .....	155
Pharmacotherapy .....	156
Antihistamines .....	156
Barbiturates and Chloral Hydrate .....	156
Benzodiazepines .....	156
Nonbenzodiazepine Hypnotics .....	157
Antidepressants .....	157
Melatonin .....	157
Antipsychotic Drugs .....	157
Summary: Role of the Pharmacist .....	157
Annotated Bibliography .....	157
<b>Self-Assessment Questions .....</b>	<b>159</b>
 <b>METABOLIC, ENDOCRINOLOGIC, AND CARDIOVASCULAR ADVERSE EFFECTS OF PSYCHOTROPIC DRUGS</b>	
Learning Objectives .....	163
Introduction .....	163
Metabolic Disturbances .....	163
Epidemiology .....	163
Weight Gain .....	163
Lipid Abnormalities .....	164
Diabetes Mellitus .....	164
Pathophysiology and Etiology .....	165
Weight Gain .....	165
Lipid Abnormalities .....	165
Diabetes Mellitus .....	165
Clinical Evidence .....	166
Weight Gain .....	166
Antipsychotic-associated Weight Gain .....	166
Antidepressant-associated Weight Gain .....	166
Lipid Abnormalities .....	166
Diabetes Mellitus .....	167
Monitoring and Therapeutic Considerations .....	168
Sexual Dysfunction .....	169
Epidemiology .....	169
Pathophysiology and Etiology .....	170
Clinical Evidence .....	171
Monitoring .....	171
Therapeutic Considerations .....	171
Hyperprolactinemia .....	173
Epidemiology .....	173
Pathophysiology and Etiology .....	174
Clinical Evidence .....	174

Monitoring .....	175
Therapeutic Considerations .....	175
<b>Cardiovascular Disturbances .....</b>	<b>175</b>
Epidemiology .....	175
Clinical Evidence .....	176
Blood Pressure .....	176
Congestive Heart Failure and Myocarditis .....	176
QTc Interval Prolongation .....	176
Cerebrovascular Events .....	177
Conclusion .....	177
Annotated Bibliography .....	178
<b>Self-Assessment Questions .....</b>	<b>179</b>
