

TABLE OF CONTENTS

ILLUSTRATIONS IN THIS BOOK.....	vi
PSAP-VII EDITORIAL BOARD.....	vii
WELCOME.....	viii
FACULTY POTENTIAL COI DISCLOSURE.....	ix
ROLE OF ACCP.....	ix
ROLE OF BPS.....	ix
CPE AND PROGRAM INSTRUCTIONS.....	x
POSTTEST INSTRUCTIONS.....	x

Geriatrics I.....	1
Geriatrics I Panel.....	3
Geriatrics I Subscriber Evaluation.....	5

EPILEPSY IN THE OLDER ADULT

By Timothy E. Welty, Pharm.D., FCCP, BCPS; and
Marty L. Eng, Pharm.D., FASCP, BCPP, CGP

Introduction.....	7
Epidemiology in the Older Adult.....	7
Etiology in the Older Adult.....	8
Risk Factors.....	8
Pharmacotherapy.....	8
Accurate Diagnosis.....	9
Decision to Treat.....	10
AED Selection.....	12
Pharmacotherapy Plan.....	14
Special Considerations.....	16
Discontinuation of AEDs.....	16
Seizure Prophylaxis.....	16
Role of the Pharmacist.....	16
Annotated Bibliography.....	17
Self-Assessment Questions.....	23

CARDIOVASCULAR DISEASE IN OLDER ADULTS

By Kristen Cook, Pharm.D., BCPS; and
Paul P. Dobesh, Pharm.D., FCCP, BCPS (AQ Cardiology)

Introduction and Epidemiology.....	27
Changes in the CV System with Aging.....	27
Hypertension.....	28
Blood Pressure Measurement.....	28
Outcomes and Goals.....	28
Treatment.....	30
Dyslipidemia.....	31
Changes in the Lipid Profile with Age.....	31
Application of National Cholesterol Education Program Guidelines in the Elderly.....	31
Statin Underutilization.....	32
Heart Failure.....	32
Epidemiology and Prescribing Patterns.....	32
Treatment of HF with LV Dysfunction.....	33
Treatment of HF with Preserved LV Function.....	37
Acute Coronary Syndrome.....	37

Epidemiology and Clinical Presentation.....	37
Non-ST-elevation ACS.....	38
ST-segment Elevation Myocardial Infarction.....	39
Dementia Risk and CVD: Vascular Dementia.....	39
Treatment of Vascular Dementia.....	40
CIs and CV Adverse Effects.....	40
Role of the Pharmacist.....	40
Annotated Bibliography.....	41
Self-Assessment Questions.....	45

ANTICOAGULATION IN THE ELDERLY

By Heather Sakely, Pharm.D., BCPS

Introduction.....	49
Differences in Pharmacokinetics and Pharmacodynamics in the Elderly.....	49
Attitudes—Patient Preferences, Physician Perspectives, and Clinical Practice.....	50
Risk-Benefit Stratification.....	50
Treatment of AF/Atrial Flutter.....	51
Thrombotic Risk Assessment.....	51
Therapeutic Options.....	52
Intensity of Anticoagulation.....	53
Treatment of VTE.....	53
Prevalence.....	53
Intensity and Duration of Anticoagulation.....	54
Bleeding Risk.....	54
Fall Risk.....	55
Prophylaxis.....	56
Minor Procedures.....	56
Orthopedic Surgery.....	56
Residents of SNFs.....	57
New Drugs.....	57
SSR12517E.....	57
Dabigatran Etexilate, Apixaban, and Rivaroxaban.....	57
Role of the Pharmacist.....	60
Annotated Bibliography.....	60
Self-Assessment Questions.....	63

Geriatrics II.....	67
Geriatrics II Panel.....	69
Geriatrics II Subscriber Evaluation.....	71

DELIRIUM IN THE ELDERLY

By Sue Fosnight, BPharm, BCPS, CGP

Introduction.....	73
Prevalence.....	73
Outcomes.....	73
Pathogenesis.....	74
Risk Factors for Delirium.....	74
Drugs with Anticholinergic Activity.....	75
Benzodiazepines.....	76
Opioids.....	76

Other Central Nervous System Drugs	77
Prevention	78
Role of the Pharmacist in Prevention	78
Delirium Prevention Interventions	79
Detection of Delirium	80
Treatment of Delirium	82
Underlying Causes	82
Pharmacotherapy	82
Role of the Pharmacist	86
Conclusion	87
Annotated Bibliography	87
Self-Assessment Questions	91

DIZZINESS AND SYNCOPE IN THE ELDERLY

**By Rebecca B. Sleeper, Pharm.D., FASCP, BCPS; and
Amie Taggart Blaszczyk, Pharm.D., FASCP, BCPS, CGP**

Introduction	97
Etiology and Epidemiology	97
Definitions	97
Multifactorial Causes	99
Consequences of Dizziness and Syncope	99
Vertigo and Vestibular Disorders	100
Differentiating Vertigo from Other Causes of Dizziness	100
Treatment	100
VVS and OH	102
Differentiating VVS from OH	102
Treatment	102
Drug-Induced Dizziness and Syncope	106
Conclusion	107
Annotated Bibliography	107
Self-Assessment Questions	111

ELDER ABUSE

By Julie A. Fusco, Pharm.D., BCPS, CGP

Introduction	115
Laws	115
Epidemiology	116
Incidence	116
Prevalence	117
Types of Abuse	118
Physical	118
Sexual	118
Psychological	118
Financial	119
Neglect	119
Self-neglect	119
Screening	120
Victim Considerations	120
Risk Factors in the Domestic Setting	120
Risk Factors in the Institutional Setting	121
Consequences	121
Perpetrator Considerations	121
Risk Factors in the Domestic Setting	121
Risk Factors in the Institutional Setting	122
Consequences	122
Reporting	122

Requirements	122
Obstacles	123
Receiving Agencies	123
Conclusion	124
Annotated Bibliography	125
Self-Assessment Questions	129

FALLS AND FALL PREVENTION

By Cheryl A. Sadowski, Pharm.D.

Introduction	133
Definitions	133
Falls as a Geriatric Syndrome	134
History of Falls Research	134
Epidemiology	134
Effect of Falls	135
Fractures	135
Psychological Effect	135
Risk Factors	135
Age-Related Changes in Gait and Balance	135
Medical Conditions	135
Medications	136
Other Risks	137
Assessment	137
Assessing Fall Risk	137
Post-Fall Assessment	137
Goals and Interventions	137
Fall Prevention	140
Fracture Prevention	141
Public Health Guidelines	141
Role of the Pharmacist	142
Conclusion	142
Annotated Bibliography	142
Self-Assessment Questions	145

Geriatrics III	149
Geriatrics III Panel	151
Geriatrics III Subscriber Evaluation	153

NUTRITION AND EXERCISE IN THE OLDER PERSON

**By Erica L. Estus, Pharm.D., CGP; and
Norma J. Owens, Pharm.D., FCCP, BCPS**

Nutrition	155
Characteristics of Proper Nutrition	155
Nutritional Requirements	156
Nutritional Assessment and Intervention	159
Exercise	160
General Goals and Benefits	160
Assessment Before Exercise Initiation	160
Forms of Exercise	163
Relationship Between Physical Activity and Nutrition	165
Adherence to Health Promotion Activities	165
The Role of the Pharmacist	166
Annotated Bibliography	166
Self-Assessment Questions	171

VITAMIN AND MINERAL SUPPLEMENTATION IN OLDER ADULTS

By Christine K. O'Neil, Pharm.D., FCCP, BCPS, CGP

Introduction.....	175
Role of Micronutrients.....	175
Prevalence of Vitamin Use.....	176
Dietary Reference Intakes.....	176
Age-Related Factors That Influence	
Vitamin Deficiency/Nutrition Risk.....	176
Physiologic Changes.....	176
Anorexia of Aging.....	177
Chronic Disease.....	177
Social Factors.....	177
Strategies to Improve Nutrition.....	177
Food Enhancement Strategies.....	177
Liquid Oral Nutrition Supplementation.....	177
MVM Supplementation.....	178
Micronutrient Deficiency.....	178
Single Micronutrient Deficiency.....	178
Subclinical Deficiency.....	178
Micronutrients and Disease.....	178
Eye Disorders.....	179
Cardiovascular Disease.....	180
Affective/Cognitive Disorders.....	181
Lung Function.....	181
Bone/Muscle Function.....	181
Cancer.....	183
Infection/Immune Status.....	183
All-Cause Mortality and Vitamin E.....	184
Role of the Pharmacist.....	184
Vitamins.....	184
Minerals and Trace Elements.....	186
Conclusion.....	188
Annotated Bibliography.....	188
Self-Assessment Questions.....	191

Lists of Drugs to Avoid.....	212
The Screening Tool of Older Persons' Prescriptions ...	215
Improving Prescribing in the Elderly Tool.....	215
Assessing Care of Vulnerable Elders.....	215
Advantages of Explicit Criteria.....	215
Disadvantages of Explicit Criteria.....	221
Adoption of Explicit Quality Improvement Tools.....	221
Implicit Criteria to Evaluate Drug Therapy Quality.....	222
Medication Appropriateness Index.....	222
Drug Regimen Review Checklist.....	222
Medication Therapy Management in Pharmacy	
Practice Core Elements Service Model Version 2.0	222
Other Implicit Criteria for Drug Regimen Review.....	222
Drug Burden Index.....	224
Developing a Strategy to Improve	
Drug Therapy Quality.....	224
Increasing Pharmacy Workforce	
Competency in Geriatrics.....	226
Conclusion.....	227
Annotated Bibliography.....	227
Self-Assessment Questions.....	233

IMMUNIZATIONS IN THE ELDERLY

By Olga Hilas, Pharm.D., MPH, BCPS, CGP; and
Danielle C. Ezzo, Pharm.D., BCPS, CGP

Introduction.....	195
Influenza.....	196
Pneumococcal Disease.....	200
Herpes Zoster.....	201
Tetanus.....	201
Other Vaccine-Preventable Diseases.....	202
Role of the Pharmacist.....	202
Conclusion.....	203
Annotated Bibliography.....	203
Self-Assessment Questions.....	207

QUALITY IMPROVEMENT INITIATIVES IN THE ELDERLY

By David P. Elliott, Pharm.D., FCCP, FASCP, AGSF, CGP

Introduction.....	211
Explicit Criteria to Evaluate Drug Therapy Quality.....	212
