

# TABLE OF CONTENTS

## Acute Organ Dysfunction and Special Populations I ..... 1

Acute Organ Dysfunction and Special Populations I Panel ..... 3

## Acute Kidney Injury and Continuous Renal Replacement Therapy

*By Joseph M. Davis, Pharm.D., BCPS; and Soo Min Jang, Pharm.D., Aph, BCACP*

Introduction	7
Classification of AKI	8
Early Detection of AKI	8
Treatment of AKI	10
Pharmacokinetic and Pharmacodynamic Alterations	12
Principles of Drug Dosing	14
Indications for RRT	15
Continuous Renal Replacement Therapy	16
Drug Dosing in CRRT	18
Conclusion	21
References	21
Self-Assessment Questions	25

## Acute Hepatic Failure, Alcoholic Liver Disease, and Pancreatitis

*By: Stephanie Bass, Pharm.D., BCCCP, BCPS; and Mollie Lumpkin, Pharm.D., BCCCP, BCPS*

Introduction	29
Acute Liver Failure	29
Cirrhotic Complications in the ICU	39
Drug Dosing Considerations in ALF and End-Stage Liver Disease	49
Pancreatitis	50
Conclusion	54
References	54
Self-Assessment Questions	60

## Acute Organ Dysfunction and Special Populations II ..... 65

Acute Organ Dysfunction and Special Populations II Panel ..... 67

## Prevention and Treatment of Delirium and Post-ICU Syndrome

*By Mona K. Patel, Pharm.D., FCCM, BCCCP; and Susan E. Smith, Pharm.D., BCPS, BCCCP*

Introduction and Background of Delirium	71
Nonpharmacologic Prevention and Treatment	72
Pharmacologic Prevention and Treatment	76

Post-Intensive Care Syndrome	82
Treatment of PICS and Associated Clinics	86
Delirium and PICS in Patients with COVID-19	92
Conclusion	93
References	93
Self-Assessment Questions	99

## Acute Traumatic Brain Injury Management

*By Susan E. Hamblin, Pharm.D., FCCM, BCPS, BCCCP*

Introduction	103
Supportive Care Considerations in TBI	106
Hemostatic Interventions	109
Approach to ICH in Severe TBI	114
Acute Complications in Severe TBI	119
Conclusion	124
References	125
Self-Assessment Questions	130

## Acute Organ Dysfunction and Special Populations III ..... 135

Acute Organ Dysfunction and Special Populations III Panel ..... 137

## Management of the Critically Ill Pregnant Patient

*By Mary E. Temple-Cooper, MS, Pharm.D., FCCP, BCPS; and Melissa Smith, Pharm.D., BCCCP*

Introduction	141
General Considerations and Challenges	144
Fetal Effects of Common Drugs Used in an Obstetric Critically Ill Patient	145
Common Pregnancy Complications and Management of a Critically Ill Obstetric or Early Puerperium Patient	146
References	167
Self-Assessment Questions	171

## Role of the Pharmacist in Disaster Preparedness

*By Molly M. Howell, Pharm.D., BCPS, BCCCP; and Rebecca G. Finder, Pharm.D., BCPS, BCCCP*

Introduction	177
Medications Involved in Disaster Preparedness	183
Medication Allocation and Distribution Systems	189
Conclusion	189
References	190
Self-Assessment Questions	192

**Acute Organ Dysfunction and Special Populations IV ..... 197**

Acute Organ Dysfunction and Special Populations IV Panel. . 199

**Interactive Case: Acute Decompensated Heart Failure**

*By Joseph S. Van Tuyl, Pharm.D., BCPS, BCCP; and Jo E. Rodgers, Pharm.D., FCCP, FHSA, FAHA, BCPS, BCCP, CPP*

Interactive Case: Acute Decompensated Heart Failure . . . . . 204
