

**Lucas Berenbrok, Pharm.D., M.S., BCACP, CTTS**

Assistant Professor, Pharmacy and Therapeutics  
University of Pittsburgh School of Pharmacy  
Pittsburgh, Pennsylvania

Lucas Berenbrok is an Assistant Professor at the University of Pittsburgh School of Pharmacy. He currently serves as the Director of the School of Pharmacy's long-standing SilverScripts program, a project to help seniors better manage their medications, which reaches upwards of 400 Pittsburgh seniors every year. He also serves as the Director of the University of Pittsburgh's Comprehensive Medication Management Benefit for faculty and staff. With faculty members from the School of Pharmacy and School of Medicine, Dr. Berenbrok leads the implementation of clinical pharmacogenomics services in outpatient settings.

At the School of Pharmacy, Dr. Berenbrok mentors students with interests in changing community pharmacy practice through enhanced community pharmacy services and innovative research. He coordinates first and second year courses focused on patient-provider communication, clinical skills, and motivational interviewing using standardized patients. He also coordinates experiential learning and skills-based courses focused in community and ambulatory care practice. He currently leads the implementation of an educational electronic health record and entrustable professional activities within the Pharm.D. curriculum.

Dr. Berenbrok received his Pharm.D. in 2013 from the University of Pittsburgh School of Pharmacy. Afterwards, he completed a one-year community pharmacy practice residency with Kerr Drug and Walgreens at the University of North Carolina Eshelman School of Pharmacy which focused on enhanced community pharmacy patient care services. He received his Master of Science in Clinical Research at the University of Pittsburgh School of Medicine in 2017 and is Board Certified in Ambulatory Care Pharmacy by the Board of Pharmacy Specialties.
