Clinical Reasoning Series in Critical Care Pharmacy

Disclosures

Disclosures

In accordance with the Accreditation Council for Continuing Medical Education's Standards for Commercial Support and the Accreditation Council for Pharmacy Education's Standards for Commercial Support, ACCP requires that all individuals involved in the development of activity content disclose their relevant financial relationships with any ineligible companies that they have had over the past 24 months. ACPE defines ineligible companies as those whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients. (e.g., employee, consultant, research grant recipient, speaker's bureau, or stockholder) in any amount occurring the in the last 24 months with a commercial interest whose products or series may be discussed in the educational activity content over which the individual has control. The existence of these relationships is provided for the information of participants and should not be assumed to have an adverse impact on the content.

All faculty and planners for ACCP education activities are qualified and selected by ACCP and required to disclose any relevant financial relationships with commercial interests. ACCP identifies and resolve conflicts of interest prior to an individual's participation in development of content for an educational activity. Anyone who refuses to disclose relevant financial relationships must be disqualified from any involvement with a continuing pharmacy education activity.

None of the planners for this activity have relevant financial relationships with ineligible companies to disclose.
