

Disclosures

In accordance with the Accreditation Council on Pharmacy Education Standards for Commercial Support, ASHP and ACCP require all individuals involved in developing the activity content to disclose their relevant financial relationships. A person has a relevant financial relationship if the individual or his or her spouse/partner has a financial relationship (e.g., employee, consultant, research grant recipients, speakers bureau, or stockholder) in any amount occurring in the past 12 months with a commercial interest whose products or series may be discussed in the educational activity content over which the individual has control. The existence of these relationships is provided for the information of participants and should not be assumed to have an adverse impact on the content.

All faculty, reviewers, and planners for the ASHP and ACCP educational activities are qualified and selected by ASHP and ACCP and required to disclose any relevant financial relationships with commercial interests. ASHP identifies and resolves conflicts of interest before an individual participates in developing the content for an educational activity. Anyone who refuses to disclose relevant financial relationships is disqualified from any involvement in the continuing pharmacy activity. The following faculty, reviewers, and planners have disclosed conflicts of interest:

- Anthony J. Perissinotti, Pharm.D., BCOP, has declared that he has received consulting fees from Amgen, Astellas, and Teva Pharmaceuticals and currently speaks on behalf of Genentech and Jazz Pharmaceuticals.
- Christine M. Walko, Pharm.D., FCCP, BCOP, declares that she has received honorarium funding from Bristol-Myers Squibb and Merck & Co.
- All other faculty, reviewers, and planners report no financial relationships relevant to this activity.
