

TABLE OF CONTENTS

Immunology	1
-------------------------	---

Routine Childhood Immunization Series

By Stacie J. Lampkin, Pharm.D., BCPPS, BCACP, AE-C; and Amy Wojciechowski, Pharm.D., BCPS

Introduction	7
Vaccination Schedules and Adherence	9
Patient Education on Vaccine Concerns	10
Interpretation of Vaccine Schedules and Administration Considerations	11
Considerations Pertaining to All Vaccinations	12
Individual Vaccine Information	16
Conclusion	24
References	24

Vaccine Development and Future Targets

By April Yarbrough, Pharm.D., BCPS; and Scott James, M.D.

Introduction	33
Importance of Vaccine Development	33
Novel Vaccines in Development	35
Maternal Vaccination	39
Advances in Established Vaccines	41
Advances in Vaccine Delivery	43
Conclusion	45
References	45

Passive Immunization

By Ann M. Philbrick, Pharm.D., BCPS, BCACP

Introduction	53
Palivizumab	53
Immunoglobulins	55
Hyperimmune Globulins	59
Pharmacist Role	61
Conclusion	61
References	61

Clinical and Practice Updates	67
--	----

Interactive Case: Immunology in Solid Organ Transplantation

By Barrett Crowther, Pharm.D., FAST, BCPS; and Leslie Stach, Pharm.D., BCPS

Interactive Case	73
------------------------	----

Translating Evidence into Practice: Human Papillomavirus Vaccination

By Nathan Painter, Pharm.D., CDE; and Stephanie Mayne, MHS

Translating Evidence into Practice	79
References	79

Translating Evidence into Practice: Vancomycin-Associated Nephrotoxicity

By Jennifer Le, Pharm.D., MAS, BCPS-AQ ID, FCCP, FASHP; and Kristen Nichols, Pharm.D., BCPS-AQ ID, BCPPS

Translating Evidence into Practice	83
References	83
