

TABLE OF CONTENTS

| | |
|---|------------|
| Cardiology and Nephrology I | 1 |
| Cardiology and Nephrology I Panel | 3 |
| | |
| Congenital Heart Defects, Heart Surgeries, Low Cardiac Output Syndrome | |
| <i>By Gale L. Romanowski, Pharm.D., BCPPS</i> | |
| Introduction | 7 |
| Acyanotic Lesions | 8 |
| PDA Closure and Cyclooxygenase Inhibitors | 8 |
| Cyanotic Lesions: Abbreviations, Descriptions, Pre- and Postoperative Considerations, Surgical Repair | 14 |
| Alprostadiil for PDA Maintenance | 15 |
| Single Ventricle Defects | 15 |
| Single Ventricle Considerations/Treatments | 15 |
| Other Postoperative Complications/Therapeutics | 17 |
| Low Cardiac Output Syndrome | 18 |
| Cardiac Output | 19 |
| Preload | 20 |
| Contractility | 22 |
| Afterload | 25 |
| Transitioning to Enteral Medications and Discharge | 26 |
| Conclusion | 27 |
| References | 27 |
| Self-Assessment Questions | 32 |
| | |
| Pediatric Cardiomyopathies and Heart Failure Management | |
| <i>By Tim Humlincek, Pharm.D.</i> | |
| Overview | 35 |
| Pediatric HF | 41 |
| References | 65 |
| Self-Assessment Questions | 75 |
| | |
| Cardiology and Nephrology II | 81 |
| Cardiology and Nephrology II Panel | 83 |
| | |
| Arrhythmias | |
| <i>By Amanda Baker, Pharm.D., BCPPS; and Brady S. Moffett, Pharm.D., MPH, MBA</i> | |
| Introduction | 87 |
| Normal Cardiac Conduction | 87 |
| Common Arrhythmias and Treatment Strategies | 89 |
| Treatment Options | 96 |
| Arrhythmia in the Fetus | 102 |
| | |
| References | 104 |
| Self-Assessment Questions | 109 |
| | |
| Anticoagulation in the Pediatric Cardiac Patient | |
| <i>By Jessica Otero, Pharm.D.</i> | |
| Introduction | 113 |
| Antithrombotic Agents | 114 |
| Antiplatelet Agents | 119 |
| Monitoring of Anticoagulation | 120 |
| Cardiac Surgical Procedures | 121 |
| Mechanical Circulatory Support | 124 |
| Arrhythmias | 131 |
| Kawasaki Disease | 131 |
| Cardiomyopathy | 132 |
| Reversal of Anticoagulation | 133 |
| Factor Replacement | 134 |
| Conclusion | 135 |
| References | 135 |
| Self-Assessment Questions | 143 |
| | |
| Cardiology and Nephrology III | 147 |
| Cardiology and Nephrology III Panel | 149 |
| | |
| Renal Dysfunction/Failure/Replacement Therapies in the Cardiac Patient | |
| <i>By Jennifer Hewlett, Pharm.D.</i> | |
| Introduction and Review of Normal Kidney Physiology | 153 |
| Definition of AKI | 153 |
| Pathophysiology of AKI After Cardiac Bypass | 158 |
| Assessment of Risk Factors for the Development of AKI | 159 |
| Prevention Strategies for AKI | 161 |
| Management | 164 |
| Medication Dosing Considerations in AKI and RRT | 165 |
| Recovery of Renal Function and Long-Term Outcomes | 165 |
| References | 167 |
| Self-Assessment Questions | 172 |
| | |
| Kidney Transplantation | |
| <i>By Jennifer Gilarde, Pharm.D.</i> | |
| Introduction to Pediatric Kidney Transplantation | 177 |
| Overview of Rejection | 179 |

| | |
|---|-----|
| Overview of Immunosuppression in Pediatric Kidney Transplantation | 181 |
| Postoperative Management of the Pediatric Kidney Transplant Recipient | 186 |
| Long-term Management of the Pediatric Kidney Transplant Recipient | 189 |
| Conclusion | 195 |
| References | 195 |
| Self-Assessment Questions | 198 |

Cardiology and Nephrology IV 203

| | |
|--|-----|
| Cardiology and Nephrology IV Panel | 205 |
|--|-----|

Interactive Case: QTc Prolongation and Post-Cardiac Surgery Arrhythmias

By Susan C. Villegas, Pharm.D., BCPPS

| | |
|---|-----|
| Interactive Case: QTc Prolongation and Post-Cardiac Surgery Arrhythmias | 210 |
|---|-----|

| | |
|---------------------------------|-----|
| Hyperlink to Activity | 210 |
| References | 210 |
| Self-Assessment Questions | 212 |

Interactive Case: Coagulation Controversies

By Christa Jefferis Kirk, Pharm.D., BCCP; and Jennifer Pak, Pharm.D., CACP

| | |
|---|-----|
| Interactive Case: Coagulation Controversies | 218 |
| Hyperlink to Activity | 218 |
| References | 219 |
| Self-Assessment Questions | 224 |
