**Primary Specialty:** Ambulatory Care  
**Position Start Date:** 10/1/2018  
**Length of Program:** 1 year  
**Number of Positions:** 1  

**Position Description:**
Banner Pharmacy Services makes health care easier, providing excellent patient care across our entire continuum through integration, care coordination, medication management and innovative pharmacy services so patient lives can be better. Specifically, Ambulatory Care Clinical Pharmacists work closely with providers to provide population-based disease management, patient and provider education and collaborative drug therapy management through direct patient care and telephonic follow-up. The pharmacist actively manages medication therapy, completes medication reviews and collaborates with providers to optimize medication therapy, improve medication adherence, promote wellness, prevent disease, and improve outcomes. Preferred candidate to have completed a PGY-2 Residency in ambulatory care.

**Primary Specialty:** Ambulatory Care  
**Position Start Date:** 7/16/2018  
**Length of Program:** 1 year  
**Number of Positions:** 2  
**Stipend:** $54,600  

**Position Description:**
Banner Health’s Ambulatory Care Residency builds on the PharmD education and PGY1 experience to contribute to the development of clinical pharmacists in ambulatory care. The residency provides the opportunity for independent practice, incorporating accumulated experience and knowledge into the provision of patient care. Based at Banner University Medical Center Internal and Family Medicine Clinics in Phoenix, the PGY2 resident will work alongside medical residents for a collaborative learning experience while working under collaborative drug therapy management protocols to provide direct patient care. Additional opportunities include drug therapy management within Banner Medical Group clinics, population health, telemedicine, and specialty pharmacy.

**Position Description:**

The PGY-2 Internal Medicine Residency Program is designed to provide the opportunity for the resident to obtain advanced training in the area of internal medicine and its sub-specialties. The resident will receive well-rounded training experience that will enable the resident to succeed in the areas of service, teaching, and scholarly activities. Service experiences include clinical service, formulary management, medication-use evaluation, and distribution. The internal medicine services are academic teaching services run by physicians who value pharmacy services and are receptive to pharmacy contributions to teaching and patient care. Teaching experiences include didactic teaching, small group facilitation, experiential precepting, and human-patient simulation. Scholarly experiences include preparation of a manuscript for publication, presentation of a professional poster at a national meeting, and development of a longitudinal research project. Required rotations include Internal Medicine (x3), MICU (x1), a longitudinal outpatient Family Medicine Clinic, and 4 open elective experiences. Rotations are structured to meet personal interests. In addition, an optional international rotation in South Africa is also available as an unique learning experience. The program's goal is to prepare the resident for a position in any number of areas of internal medicine practice, including academia and clinical specialist positions.

**Position Description:**

The PGY-2 Infectious Disease Residency Program is an organized, directed postgraduate training program that centers on developing the competencies necessary to provide pharmacist care to patients with infectious diseases. The resident will receive well-rounded training experience that will enable the resident to succeed in the areas of service, teaching, and scholarly activities. Most of the resident’s clinical experiences will be on the infectious diseases consult team. The resident will also complete experiences or rotations in clinical microbiology laboratory, antimicrobial stewardship, critical care unit, HIV Clinic, and on the bone marrow transplant service. Additional elective experiences can be scheduled to meet the resident’s interests. The resident will actively participate on the Antimicrobial Stewardship Subcommittee of the Pharmacy and Therapeutics Committee and will gain experience in formulary development and evidence-based decision making.

WVU Health Sciences Center
Residency (PGY2)
Primary Specialty: Oncology
Position Start Date: 7/2/2018
Length of Program: 1 year
Number of Positions: 1
Stipend: $49,000

Position Description:
The PGY-2 Oncology Residency Program is designed to develop the specialized knowledge, competency and skill necessary to provide pharmacist care to patients with cancer. The resident will be actively involved in managing the therapeutic decisions and clinical outcomes of cancer patients in an interdisciplinary environment. The resident will participate in all aspects of oncology pharmacy practice pertaining to clinical practice and outcomes, research, and education. Required practice experiences include medical oncology, malignant hematology / stem cell transplant, pediatric oncology, ambulatory oncology clinic, and palliative care. The resident will also gain experience in clinical pharmacology research, as well as development of their teaching skills. The program’s goal is to prepare the resident for a clinical position in an established cancer center or to be able to design and implement an oncology pharmacy service in another practice setting.

Residency (PGY2)
Primary Specialty: Pediatrics
Position Start Date: 7/2/2018
Length of Program: 1 year
Number of Positions: 1
Stipend: $49,000

Position Description:
Individuals completing the Post-Graduate Year Two (PGY-2) Pediatrics Pharmacy Specialty Residency at WVU Medicine shall be highly qualified independent providers of pharmacist care in the pediatric setting. The resident shall be an integral member of the interdisciplinary healthcare team with the ability to manage therapeutic decisions and clinical outcomes, conduct practice-related research/quality improvement, and educate health care professionals and patients. The resident shall be a leader in medication safety. The resident will exhibit a commitment to the profession of pharmacy and be able to develop his or her own personal plan for professional development. Residents completing this program will be specialists in Pediatric pharmacy practice. They will be abundantly prepared for employment as a pediatric clinical pharmacist in a variety of practice settings.

Residency (PGY1)
Primary Specialty: Pharmacy (Secondary: Pharmacy Practice)
Position Start Date: 7/2/2018
Length of Program: 1 year
Number of Positions: 5
Stipend: $48,000

Position Description:
PGY-1 Residents at WVU Medicine will be provided the opportunity to accelerate their growth beyond entry-level professional competence in patient-centered care and in pharmacy operational services, and to further the development of leadership skills that can be applied in any position and in any practice setting. PGY-1 residents at WVU Medicine will acquire substantial knowledge required for skillful problem solving, refine their problem-solving strategies, strengthen their professional values and attitudes, and advance the growth of their clinical judgment. The instructional emphasis is on the progressive development of clinical judgment, a process begun in the advanced pharmacy practice experiences (APPE) of the professional school years but requiring further extensive practice, self-reflection, and shaping of decision-making skills fostered by feedback on performance. Their residency year provides a fertile environment for accelerating growth beyond entry-level professional competence through supervised practice under the guidance of model practitioners. Residents at WVU Medicine will exhibit a commitment to the profession of pharmacy and be able to develop their own personal plan for professional development. Residents completing this program will have the knowledge, skills, and abilities that are highly marketable.

The program is a twelve-month, postgraduate training experience composed of five major elements:
- Inpatient Care
- Ambulatory Patient Care
- Medication Management
- Practice Management
- Practice-Related Education/Training
The program varies for each resident based upon his or her goals, interests and previous experiences. In accordance with current ASHP standards, all residents are required to complete learning experiences in core subject areas considered to be essential to the practice of pharmacy. Additional requirements include the development and completion of practice-related research, the development of oral/written communication skills, the completion of a Medication-Use Evaluation, the presentation of ACPE Accredited Continuing Education seminars, the participation in various hospital committees, operational practice in various pharmacy satellites, and the completion of the Teaching Certificate Program. Elective learning experiences are available to permit the resident flexibility in pursuing individual goals.

**Primary Specialty:** Critical Care  
**Position Start Date:** 7/2/2018  
**Length of Program:** 1 year  
**Number of Positions:** 1  
**Stipend:** $49,000

**Position Description:**
The PGY-2 Critical Care Residency Program is organized and designed to provide the postgraduate resident the opportunity for advanced training in the critical care arena. The resident will complete multiple learning experiences in the Medical Intensive Care Unit as well as the Surgical Intensive Care Unit. Additionally, the Critical Care Resident may complete rotations in Trauma, Pediatric Intensive Care, Emergency Medicine, Bone Marrow Transplant, and Infectious Diseases. Upon completion, the resident will have the ability to practice within all facets of critical care. The resident also will actively participate on the Pharmacy and Therapeutics committee as well as the Formulary Subcommittee. The resident will be expected to teach within the intensive care units as well as at the West Virginia University School of Pharmacy.

**Table #3 & #4: CHRISTUS Trinity Mother Frances Health System**

**Residency (PGY1)**
**Primary Specialty:** Pharmacy  
**Position Start Date:** 7/1/2018  
**Length of Program:** 1 year  
**Number of Positions:** 4  
**Stipend:** $50,000

**Position Description:**
The PGY1 Residency at CHRISTUS Mother Frances Hospital - Tyler is a one-year postdoctoral training program designed to enhance and strengthen the resident’s clinical skills and knowledge of the practice of pharmacy. The resident gains practice experience in direct patient care by working independently under the direction of his/her preceptor and
participating in team-based interdisciplinary care in various areas of the hospital. The resident also works with a research mentor to develop a project to be presented at a regional or national pharmacy conference. High priority is placed on teaching principles of evidence-based care, and patient safety considerations are also emphasized throughout the program. The ultimate outcome of our PGY-1 program is to produce well-rounded generalist clinicians capable of independent clinical pharmacy practice in a health system setting and/or preparation for PGY-2 specialty training.

### Residency (PGY2)

**Primary Specialty:** Emergency Medicine  
**Position Start Date:** 7/1/2018  
**Length of Program:** 1 year  
**Number of Positions:** 1  
**Stipend:** $50,000

**Position Description:**

The PGY2 residency in emergency medicine pharmacy is designed to transition PGY1 residency graduates from generalist practice to specialized practice which meets the needs of patients in the emergency department setting. Upon completion of training, graduates are equipped to be fully integrated members of the interdisciplinary emergency medicine team, are able to prioritize responsibilities and utilization of resources, and are able to make complex medication recommendations in this fast-paced environment. Training focuses on developing residents’ capability to deal with a wide range of diseases and disorders that occurs in patients in the emergency environment.

Graduates of the program are empowered to treat and appropriately triage the most complex chronic and acute illnesses presented by emergency department patients, including those with multiple disease states and serious complications. They also acquire the experience necessary to exercise leadership for emergency medicine pharmacy practice in the health-care system.

**Position Description:**

The University of Mississippi School of Pharmacy invites applications for a 12-month tenure track position at the rank of Assistant Professor. The position will be located on the Jackson, MS campus. Academic responsibilities include teaching PY1 and PY2 students in a Skills Laboratory course, facilitation and involvement in a problem-based learning course (PY2
and PY3), and training of pharmacy students on practice experiences (IPPE and APPE) and precept residents. In scholarship, the candidate will be required to develop and/or maintain an independent research program, publish results in peer-reviewed journals, and teach and mentor students and residents in research experiences. Opportunities exist in adult internal medicine, oncology and other specialty areas. The candidate will be required to develop or maintain a patient care practice. The exact emphasis on responsibilities is flexible and will be tailored to meet the individual professional goals of the candidate and as agreed upon by the candidate and department chair. In service or citizenship, the candidate will be required to serve the department, the school, and university according to needs and interest. Participation and leadership in professional and scientific organizations is encouraged.

The successful candidate must have a Doctor of Pharmacy degree from an ACPE accredited School/College of Pharmacy with residency and/or fellowship, be licensed, or eligible for licensure, as a pharmacist by the State of Mississippi. The candidate must demonstrate a commitment to teaching, service, and scholarship, and competence as a clinician. Board certification is encouraged.

Application procedures: Applications will be accepted until the position is filled or until an adequate applicant pool has been established. The desired appointment date is on or before August 1, 2018. Applications must include: 1) letter of interest, 2) curriculum vitae (including information on residency/fellowship training and board certification, if applicable); 3) statement of scholarly interests and professional goals, and 4) the names and addresses of 3 references. Applications must be submitted through the University of Mississippi online employment site at https://jobs.olemiss.edu.

Additional information about the School of Pharmacy and the Department of Pharmacy Practice may be accessed at http://www.pharmacy.olemiss.edu/. Questions may be directed to Dr. Seena Haines, Chair of the Department of Pharmacy Practice (shaines@umc.edu) or Dr. Kim Adcock (kadcock@umc.edu), Chair of the Search Committee. The University of Mississippi is an EOE/AAMinorities/Females/Vet/Disability/Sexual Orientation/Gender Identity/Title VI/Title VII/Title IX/504/ADA/ADEA employer.
