

Targeting Lung Cancer with a Focus 2021 Webinar Recording

Learning Objectives

1. Identify relevant oncogenic targets for patients with non-small cell lung cancer (NSCLC).
2. Describe the clinical trials and outcomes of key studies evaluating therapies for the treatment of patients with oncogenic targeted NSCLC.
3. Design an appropriate patient-specific treatment and monitoring plan, taking into consideration efficacy and safety outcomes from clinical trials for patients with oncogenic targeted NSCLC.
4. Compare various treatment options for patients with oncogenic targeted NSCLC.
