2016 ACCP Clinical Pharmacy Challenge

**Live Round Competition Begins October 22**

Live round action in ACCP’s pharmacy student team competition kicks off with the quarterfinal round matchups on Saturday, October 22, at the Annual Meeting in Hollywood, Florida.

From a record-breaking field of 112 teams, eight have emerged through four online rounds of competition to vie for the title of ACCP Clinical Pharmacy Challenge champion. Please join ACCP in congratulating the following individuals representing their institutions.

**Quarterfinalist Teams:**

2016 Clinical Reasoning Series Programs Offer Specialty Recertification Credit Through November 30

The 2016 home study editions of ACCP’s Clinical Reasoning Series programs will be available beginning November 1. Each program offers 6.0 hours of continuing pharmacy education (CPE) credit.

The 2016 From Theory to Practice: Clinical Reasoning Series in the Ambulatory Care Pharmacy program, titled “Hepatitis C: The Newest Strategies for Management and Treatment,” is designed for Board Certified Ambulatory Care Pharmacists (BCACPs). It provides an in-depth analysis of the current evidence on the use of various agents approved for the management of hepatitis C and discusses the implications for pharmacists’ patient care services. The program summarizes the scientific evidence and patient care recommendations necessary for enhancing patient outcomes and includes activities designed to advance participants’ abilities to incorporate significant findings into daily practice. For more information on program content, learning objectives, CPE, and BCACP recertification credit, and to order your copy, visit www.accp.com/bookstore/crsam16.aspx.

New this year, the 2016 From Theory to Practice: Clinical Reasoning Series in Critical Care Pharmacy, titled “Management of Patients with Circulatory Shock,” provides an in-depth analysis of current strategies for the treatment of patients with circulatory shock and conditions that may lead to circulatory shock, as well as a discussion on the implications for pharmacists’ patient care services. Board Certified Critical Care Pharmacists (BCCCPs) and BCPSs can earn 6.0 hours of recertification credit. Participants who are certified in both critical care pharmacy and pharmacotherapy will earn 6.0 hours of credit toward recertification in both specialties. For more information on program content, learning objectives, CPE, and BCCCP and BCPS recertification credit, and to order your copy, visit www.accp.com/bookstore/crscc16.aspx.

Also new this year, the 2016 From Theory to Practice: Clinical Reasoning Series in Pediatric Pharmacy, titled “The ABC’s of Pediatric Epilepsy: From Status Epilepticus to Long-term Seizure Management,” will evaluate pharmacologic treatment options for patients who present in status epilepticus. Expert faculty will compare the efficacy and toxicities of oral antiepileptic medications used for the treatment of pediatric epilepsy syndromes and discuss how to design an evidence-based therapeutic plan for treating patients with complex pediatric epilepsy. For more information on program content, learning objectives, CPE, and BCPPS and BCPS recertification credit, and to order your copy, visit www.accp.com/bookstore/crsped16.aspx.

New this year, the 2016 From Theory to Practice: Clinical Reasoning Series in Pharmacotherapy program, titled “Updates in Challenging Infectious Diseases,” is designed for Board Certified Pharmacotherapy Specialists (BCPSs), providing contemporary strategies for the optimal treatment of patients with fungal infections, endocarditis, meningitis, and intra-abdominal infections. It also explores best practices in the management of resistant gram-negative infections. Expert faculty provide an in-depth analysis of published scientific evidence and learning exercises that help inform patient care decisions and advance the application of best evidence to clinical pharmacy practice. For more information on program content, learning objectives, CPE, and BCPS recertification credit, and to order your copy, visit www.accp.com/bookstore/crsph16.aspx.

The home study editions include audio/slide-synchronized presentations, MP3 audio files, PDF files of the program book and associated documents, and an online posttest. To be eligible for the 6.0 hours of specialty recertification credit offered in each program, board-certified specialists must successfully complete their respective program’s web-based posttest by November 30, 2016.
Call for Nominations

All nomination materials, including letters, curricula vitae or resumes, and other supporting documents, can be submitted online to ACCP. The online nominations portal specifies the nominating materials required for each award, honor, and elective office. This portal is available at www.accp.com/membership/nominations.aspx.

PLEASE NOTE:
Due November 30, 2016 – Nominations for the fall 2017 awards (Clinical Practice, Education, Russell R. Miller, and Elenbaas Service awards), the 2018 Therapeutic Frontiers Lecture, and the 2018 elected offices.

2017 ACCP Fellows: Fellowship is awarded in recognition of continued excellence in clinical pharmacy practice or research. Nominees must have been Full Members of ACCP for at least 5 years, must have been in practice for at least 10 years since receipt of their highest professional pharmacy degree, and must have made a sustained contribution to ACCP through activities such as presentation at College meetings; service to ACCP committees, PRNs, chapters, or publications; or election as an officer. Candidates must be nominated by any two Full Members other than the nominee, by any Fellow, or by any member of the Board of Regents. Current members of the Board of Regents, Research Institute Board of Trustees, Pharmacotherapy Board of Directors, or Credentials: FCCP Committee are ineligible for consideration. Nomination deadline: February 15, 2017.

2018 Officers and Regents: President-Elect, Regents, Treasurer, and Research Institute Trustees. Nominees must be Full Members of ACCP and should have (1) achieved excellence in clinical pharmacy practice, research, or education; (2) demonstrated leadership capabilities; and (3) made prior contributions to ACCP. Current members of the Nominations Committee are ineligible. Please note that any qualifying Full Member may nominate himself or herself for office. Nomination deadline: November 30, 2016.

2017 Clinical Practice Award: Recognizes an ACCP member who has developed an innovative clinical pharmacy service, provided innovative documentation of the impact of clinical pharmacy services, provided leadership in developing cost-effective clinical pharmacy services, or shown sustained excellence in providing clinical pharmacy services. All nominations must include a letter of nomination from an ACCP member detailing the nominee’s qualifications for the award, the nominee’s curriculum vitae, and two letters of support from a minimum of two ACCP members that describe the individual’s accomplishments relative to the award criteria. At least one of the required letters of support must be from an individual outside the nominee’s current place of employment. Additional letters of support may be provided, including letters from non-ACCP members. Self-nominations are not permitted. Current members of the Board of Regents, Research Institute Board of Trustees, Pharmacotherapy Board of Directors, Awards Committee, or ACCP staff are ineligible. Nomination deadline: November 30, 2016.

2017 Education Award: Recognizes an ACCP member who has shown excellence in the classroom and/or clinical training site, conducted innovative research in clinical pharmacy education, demonstrated exceptional dedication to continuous professional development, or shown leadership in developing clinical pharmacy education programs. All nominations must include a letter of nomination from an ACCP member detailing the nominee’s qualifications for the award, the nominee’s curriculum vitae, and two letters of support from a minimum of two ACCP members that describe the individual’s accomplishments relative to the award criteria. At least one of the required letters of support must be from an individual outside the nominee’s current place of employment. Additional letters of support may be provided, including letters from non-ACCP members. Self-nominations are not permitted. Current members of the Board of Regents, Research Institute Board of Trustees, Pharmacotherapy Board of Directors, Awards Committee, or ACCP staff are ineligible. Nomination deadline: November 30, 2016.

2017 Russell R. Miller Award: Recognizes an ACCP member who has made substantial contributions to the literature of clinical pharmacy, either in the form of a single, especially noteworthy contribution or sustained contributions over time. All nominations must include a letter of nomination from an ACCP member detailing the nominee’s qualifications for the award, the nominee’s curriculum vitae, and two letters of support from a minimum of two ACCP members that describe the individual’s accomplishments relative to the award criteria. At least one of the required letters of support must be from an individual outside the nominee’s current place of employment. Additional letters of support may be
given only

ACCP Report

October 2016

Board of Directors,

2017 Paul F. Parker Medal for Distinguished Research: Recognizes individual research that is actively advancing the frontiers of pharmacotherapy. Recipients need not be ACCP members. All nominations must include a letter of nomination from an ACCP member detailing the nominee’s qualifications for the award, the nominee’s curriculum vitae, and two letters of support from a minimum of two ACCP members that describe the individual’s accomplishments relative to the award criteria. At least one of the required letters of support must be from an individual outside the nominee’s current place of employment. Additional letters of support may also be included. Current members of the Board of Regents, Research Institute Board of Trustees, Pharmacotherapy Board of Directors, Awards Committee, or ACCP staff are ineligible. Nomination deadline: February 15, 2017.

Robert M. Elenbaas Service Award: Given only when a particularly noteworthy candidate is identified in recognition of outstanding contributions to the vitality of ACCP or to the advancement of its goals that are well above the usual devotion of time, energy, or material goods. All nominations must include a letter of nomination from an ACCP member detailing the nominee’s qualifications for the award, the nominee’s curriculum vitae, and two letters of support from a minimum of two ACCP members that describe the individual’s accomplishments relative to the award criteria. At least one of the required letters of support must be from an individual outside the nominee’s current place of employment. Additional letters of support may also be included. Current members of the Board of Regents, Research Institute Board of Trustees, Pharmacotherapy Board of Directors, Awards Committee, or ACCP staff are ineligible. Nomination deadline: November 30, 2016.

2017 New Educator Award: This award recognizes and honors a new educator for outstanding contributions to the discipline of teaching and to the education of health care practitioners. Nominees must have been Full Members of ACCP at the time of nomination and members at any level for a minimum of 3 years. In addition, nominees must have completed their terminal pharmacy training or degree (whichever is most recent) within the past 6 years. Fellows of ACCP (i.e., "FCCPs") are ineligible. All nominations must include a letter of nomination from an ACCP member detailing the nominee’s qualifications for the award, the nominee’s curriculum vitae, and two letters of support (also from ACCP members) that describe the individual’s accomplishments relative to the award criteria. At least one of the letters of support must be from an individual outside the nominee’s current place of employment. Additional letters of support may be provided, including letters from non-ACCP members. Self-nominations are not permitted. Current members of the Board of Regents, Awards Committee, or ACCP staff are ineligible. Nomination deadline: February 15, 2017.

2017 New Clinical Practitioner Award: This award recognizes a new clinical practitioner who has made outstanding contributions to the health of patients and/or the practice of clinical pharmacy. Nominees must have been Full Members of ACCP at the time of nomination and members at any level for a minimum of 3 years. In addition, nominees must have completed their terminal pharmacy training or degree (whichever is most recent) within the past 6 years. Fellows of ACCP (i.e., "FCCPs") are ineligible. All nominations must include a letter of nomination from an ACCP member detailing the nominee’s qualifications for the award, the nominee’s curriculum vitae, and two letters of support (also from ACCP members) that describe the individual’s accomplishments relative to the award criteria. At least one of the letters of support must be from an individual outside the nominee’s current place of employment. Additional letters of support may be provided, including letters from non-ACCP members. Self-nominations are not permitted. Current members of the Board of Regents, Awards Committee, or ACCP staff are ineligible. Nomination deadline: February 15, 2017.

Register for ACCP Academy Fall Programming

There is still time to register for the ACCP Academy fall programming offered at the 2016 ACCP Annual Meeting, October 23–26, in Hollywood, Florida. Choose from three unique professional development tracks that lead to certificates of completion: Leadership and Management, Research and Scholarship, and Teaching and Learning. Each program will offer required and elective sessions, beginning with the prerequisite “primers” offered as part of the Annual Meeting presymposia on Saturday, October 22.

The following ACCP Academy programming will be offered at the meeting:

<table>
<thead>
<tr>
<th>Leadership and Management Certificate Program</th>
</tr>
</thead>
<tbody>
<tr>
<td>Leadership Primer, I*</td>
</tr>
<tr>
<td>Leadership Primer, II</td>
</tr>
<tr>
<td>Imposters, Negotiators, Mentors, and Perfectionist: A Journey to Confident Leadership (Elective)</td>
</tr>
<tr>
<td>The Application of Adaptive Leadership in Pharmacy (Elective)</td>
</tr>
<tr>
<td>Personal Leadership Development (Module 1)</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Research and Scholarship Certificate Program</th>
</tr>
</thead>
<tbody>
<tr>
<td>Research Primer* (Prerequisite)</td>
</tr>
<tr>
<td>Research Basics (Module 1)</td>
</tr>
<tr>
<td>*This module has been rescheduled from Monday, October 24, 2016. It is not part of the Annual Meeting presymposia.</td>
</tr>
<tr>
<td>Conducting Practice-Based Research to Improve Patient Care (Elective)</td>
</tr>
<tr>
<td>Pharmaceutical Industry PRN and Health Outcomes PRN Focus Session—Cost-efﬁcacy vs. Clinical Efﬁcacy and the Impact on Clinical Choice (Elective)</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Teaching and Learning Certificate Program</th>
</tr>
</thead>
<tbody>
<tr>
<td>Teaching and Learning Primer* (Prerequisite)</td>
</tr>
<tr>
<td>Wikipedia—Learning Locally While Contributing Globally (Elective)</td>
</tr>
<tr>
<td>Planning for Effective Teaching (Module 1)</td>
</tr>
<tr>
<td>Preceptor Development: Educational Strategies for Improving Student Practice-Based Abilities and Interdisciplinary Communication (Elective)</td>
</tr>
</tbody>
</table>

*Part of the Annual Meeting Presymposia. Separate registration is required.

ACCP-PAC PRN Participation Challenge Update

The ACCP Political Action Committee (ACCP-PAC) recently launched the 2016 ACCP-PAC Practice and Research Network (PRN) Participation Challenge to determine which PRNs provide the greatest PAC support. When PRN members contribute to the PAC online, they are provided with an option to designate a PRN to receive credit for their contribution. Over time, ACCP will determine which PRN provides the greatest PAC support.

This year, the PRN Participation Challenge will recognize two winners:
- The PRN whose members contribute the most money in total
- The PRN with the highest percentage of members who contribute to the PAC

ACCP members who belong to multiple PRNs can make multiple contributions in the name of each PRN, but only one PRN can receive credit for any single contribution.

Click here to contribute to ACCP-PAC and show support for your PRN!

Current Leaderboard

Total Dollars Donated

1. Cardiology
2. Ambulatory Care
3. Pediatrics
4. Nephrology
5. Clinical Administration
5. Hematology/Oncology
5. Pharmacokinetics/Pharmacodynamics/Pharmacogenomics
6. GI/Liver/Nutrition
7. Critical Care
8. Geriatrics
9. Education and Training
9. Infectious Diseases
10. Global Health
About the ACCP-PAC PRN Participation Challenge

- Unlike the Frontiers Fund, ACCP-PAC cannot accept contributions directly from PRNs. All PAC contributions must be made by individuals from personal funds. Because of Federal Election Commission (FEC) regulations, PAC contributions are NOT deductible as charitable donations for federal tax purposes and must be made from personal funds and/or post-tax dollars.
- To qualify for the PRN Participation Challenge, PRN members must contribute a minimum of $5. However, to increase the funds available to give to candidates this election season, PRN members are urged to contribute at least $25 to this effort.
- The winning PRN will be awarded coveted preferential timeslots for PRN business meetings at the next two ACCP Annual Meetings.
- The results will be announced at the ACCP Annual Meeting in October.
- Please contribute online at [www.accpaction.com](http://www.accpaction.com).

More About ACCP-PAC

ACCP-PAC is the only means by which ACCP can provide financial support to help candidates for Congress who understand and support its issues and share its vision of a team-based, patient-centered, quality-driven approach to health care delivery.

ACCP-PAC is non-partisan and supports candidates regardless of political party affiliation. ACCP-PAC is regulated by the Federal Election Commission (FEC) based in Washington, D.C. The PAC files quarterly FEC reports declaring all PAC receipts and disbursements, which are publicly available at [www.fec.gov](http://www.fec.gov).

ACCP-PAC Governing Council

ACCP-PAC is member-driven, and its strategic policy decisions—including those related to which candidates receive financial contributions from ACCP-PAC—are made by the PAC Governing Council. The ACCP-PAC Governing Council consists of the following ACCP members:

- Suzanne A. Nesbit: PAC Governing Council president (and past regent)
- Gary R. Matzke: treasurer
- Michael S. Maddux: secretary
- Sara D. Brouse: member (sitting regent)
- Bradley G. Phillips: member (and past ACCP treasurer)

Who Receives ACCP-PAC Support?

All decisions regarding financial contributions to candidates are made by the PAC Governing Council according to certain established criteria:

- Position on key health care committees in Congress
- Proven support for pharmacy and health care–related issues
- Previous health care experience

The key health care–related committees in the House of Representatives are the Appropriations, Ways & Means, and Energy & Commerce committees; and in the Senate, these are the Appropriations, Finance, and Health, Education, Labor & Pensions committees.

ACCP members who contribute to the PAC may recommend candidates to receive contributions. All PAC contributor recommendations will be considered; however, not all requests may be accommodated. The ACCP-PAC Governing Council must approve all candidate contributions.

As a federal committee, ACCP-PAC can only contribute to candidates who are running for federal office (candidates for the U.S. House of Representatives or U.S. Senate, not for state legislatures or gubernatorial races).

For more information, visit the ACCP-PAC website at [www.accpaction.com](http://www.accpaction.com) or contact John McGlew (jmcglew@accp.com).

ACCP-PAC Provides Support to Congressional Health Care Leaders

ACCP continues to develop and strengthen its relationship with two important health care policy leaders on Capitol Hill—Representatives Erik Paulsen (R-MN) and Peter Welch (D-VT). During the past few months, ACCP has endorsed the Better Care, Lower Cost Act (H.R. 4878), which these congressional representatives
Electoral College votes. A further 113 Electoral College votes are up for grabs from states considered “toss-ups” or “too close to call.” According to this prediction, the Trump campaign would need to win an overwhelming number of states currently considered “toss-ups,” that voted for Obama/Biden in 2012, including the traditional “must-win” prizes of Ohio and Florida.

The poll numbers reflect the fallout from a chaotic week for the Trump camp, following the release of an 11-year-old video in which Trump boasts about sexual assault, prompting several senior Republicans to distance themselves from their controversial presidential nominee. However, Trump has successfully overcome a series of scandals during this rollercoaster campaign. Question marks continue to linger over Clinton’s integrity as a result of her perceived involvement in a series of scandals over the span of her political career. It is fair to say that the 2016 presidential election is still far from over.

The breakdown of states is as follows, with relevant Electoral College votes shown in parentheses:

<table>
<thead>
<tr>
<th>State</th>
<th>Votes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Solid Clinton (115)</td>
<td></td>
</tr>
<tr>
<td>California (55)</td>

### 2016 Presidential Election Preview

With less than a month to go until election day, it’s time to look at the state of the 2016 presidential elections as the candidates close in on the final weeks of this historically contentious campaign.

A total of 270 Electoral College votes are required to secure the presidency. As things currently stand, according to the electoral poll aggregators “RealClearPolitics,” polling indicates that the Clinton/Kaine campaign is on course to win 260 Electoral College votes, and the Trump/Pence campaign should secure 165 Electoral College votes. The two campaigns are neck and neck, with no clear path to victory in the battleground states.
### Solid Trump (49)
- Alabama (9)
- Arkansas (6)
- Idaho (4)
- Kentucky (8)
- Nebraska (4)
- North Dakota (3)
- Oklahoma (7)
- West Virginia (5)
- Wyoming (3)

### Likely Trump (47)
- Alaska (3)
- Kansas (6)
- Louisiana (8)
- Mississippi (6)
- Montana (3)
- Nebraska CD2 (1)
- South Dakota (3)
- Tennessee (11)
- Utah (6)

### Leans Trump (69)
- Indiana (11)
- Maine CD2 (1)
- Missouri (10)
- South Carolina (9)
- Texas (38)

### “Toss-ups” (113)
- Arizona (11)
- Florida (29)
- Georgia (16)
- Iowa (6)
- Maine (2)
- Minnesota (10)
- Nevada (6)
- North Carolina (15)
- Ohio (18)

Of special note, Maine and Nebraska allocate two electoral votes to the popular vote winner and then one each to the popular vote winner in each congressional district (two in Maine, three in Nebraska) in their state. This creates multiple popular vote contests in these states, which could lead to a split electoral vote. (All polling data accurate as of 10/12/2016, taken from RealClearPolitics.)

**Registration Open for ACCP Updates in Therapeutics® 2017**

ACCP Updates in Therapeutics® preparatory review and recertification courses are designed for pharmacy professionals preparing for the specialty certification examinations administered by the Board of Pharmacy Specialties (BPS), for specialists seeking recertification through continuing education, and for those seeking a self-paced refresher of the pharmacotherapeutic management of specialty-specific conditions and contemporary clinical practice topics.

Attendees will have the option to attend courses in ambulatory care pharmacy, pediatric pharmacy, and pharmacotherapy. For those interested in critical care pharmacy or those unable to attend the Society of Critical Care Medicine’s (SCCM’s) 46th Critical Care Congress, ACCP will offer an abbreviated encore of the 2017 ACCP/SCCM Critical Care Pharmacy Preparatory Review and Recertification Course.

For the second year, the Updates in Therapeutics® meeting will feature the *Fundamentals of Biostatistics and Clinical Trial Design Workshop*, an in-depth, interactive premeeting workshop designed to strengthen the participant’s understanding of core biostatistics and clinical trial design concepts.

Meeting attendees will have additional professional development opportunities, including the ACCP Academy, which will feature curricular sessions from the Teaching and Learning, Leadership and Management, and Research and Scholarship certificate programs, and *Emerge from the Crowd: How to Become a Standout Residency Candidate*, a premeeting program intended for first-, second-, and third-year pharmacy students planning to pursue postgraduate residency training.
For more information about ACCP Updates in Therapeutics® 2017 or to view the full meeting schedule, register, or reserve hotel accommodations, visit www.accp.com/ut.

**Attend the Survivorship in Cancer Webinar and Earn Recertification Credit in Oncology**

Make plans now to attend the *Survivorship in Cancer: Update for 2016* webinar, part of the ACCP/American Society of Health-System Pharmacists (ASHP) Oncology Pharmacy Webinar Series, on Monday, November 7, 2016. This webinar is designed for Board Certified Oncology Specialists (BCOPs) who are seeking recertification credit. To take advantage of this webinar, register today at www.oncologyprepcourse.com/2016/wonc2_16.

Led by Alexandre Chan, Pharm.D., MPH, BCPS, BCOP, this webinar will focus on survivorship in cancer. Specifically, it will focus on the importance of cancer survivorship plans, common health issues, appropriate treatment, and lifestyle recommendations for cancer survivors.

This 90-minute webinar will employ a flipped classroom instructional approach. Registrants will be assigned pre-readings to provide background on the webinar’s subject matter. Immediately after the presentation on November 7, participants in the live webinar format will participate in a live question-and-answer session led by Chan. This session will allow participants to ask clarifying questions about the content and how to apply it to practice.

**Earn Recertification Credit**

Complete the pre-readings, attend the webinar, and successfully complete and submit the associated posttest to earn 1.5 hours of BCOP recertification credit.

**Take Advantage of Low Registration Rates**

Registration begins at $89.95 for ACCP and ASHP members and $149.95 for nonmembers. “Seats” are limited, so sign up now at www.accp.com/meetings/webinars.aspx!

**Updated Pharmacotherapy Didactic Curriculum Toolkit Now Available**

In 2009, ACCP released its first Pharmacotherapy Didactic Curriculum Toolkit to guide colleges and schools of pharmacy in their curricular development efforts. Since the 2009 toolkit was published, new medical disorders and syndromes have been identified or become more prevalent. Therefore, the 2016 Educational Affairs Committee, led by Terry L. Schwinghammer and Andrew J. Crannage, took on the challenge of updating the toolkit in order to assist colleges and schools of pharmacy in developing, maintaining, and modifying their curricula.

The 2016 committee identified disease states responsive to drug therapy by reviewing current biomedical literature, textbooks, and documents from national and international professional organizations. They also examined current pharmacy curricula and surveyed the ACCP Practice and Research Networks regarding content priorities. Diseases and content topics were organized by organ system and grouped into practice competency tiers.

- **Tier 1**: Consists of 87 topics that should be sufficiently addressed to prepare all students to provide collaborative, patient-centered care upon graduation and licensure.
- **Tier 2**: Consists of 133 topics that are generally taught in the professional curriculum but that may require students to acquire additional knowledge or skills after graduation (e.g., residency training) to achieve competency in providing direct patient care.
- **Tier 3**: Consists of 56 topics that may not necessarily be taught in the professional curriculum. Therefore, graduates may find it necessary to acquire the necessary knowledge and skills on their own to provide direct patient care, if required in their practice.

The Pharmacotherapy Didactic Curriculum Toolkit will continue to be updated and can be accessed at www.accp.com/docs/positions/misc/Toolkit_final.pdf.

C. Lindsay DeVane, Pharm.D., Editor-in-Chief

*Pharmacotherapy*

Peer review is a cornerstone of biomedical publishing and is recognized as the foundation that safeguards the integrity and quality of scientific and scholarly research. *Pharmacotherapy* maintains a system of dedicated and committed editors, editorial board members, and reviewers who provide a critical evaluation of submitted manuscripts. Peer review acts as a filter to allow the best-quality articles to be published. Authors usually find that the peer review process results in an improved version of their original manuscript.

Scientific journals that use a peer review process depend on the generosity and commitment of reviewers to evaluate submitted manuscripts. The success of *Pharmacotherapy*’s peer review process requires input from hundreds of individual reviewers each year. Reviewers are asked to provide thorough and timely recommendations on the suitability of the manuscripts submitted for publication. Traditionally, most journals recognize reviewers by publishing an annual list of individuals who provided manuscript reviews. *Pharmacotherapy* has implemented two additional methods of recognizing this form of service to the journal.

Beginning with the 2016 ACCP Annual Meeting in October, four “Outstanding Reviewers” who have made significant contributions to the peer review process over the past year will be recognized at the Town Hall Meeting on Sunday, October 23, 2:30 p.m. – 4:15 p.m. Subsequently, *Pharmacotherapy*’s scientific editors and editor-in-chief will continue to recommend a few individuals each year to the *Pharmacotherapy* Board of Directors to be recognized as outstanding reviewers on the basis of their substantial contributions.

Objective criteria, including the number of manuscripts reviewed and the timeliness of the review, will be considered in identifying outstanding reviewers. Perhaps most important will be the thoroughness and insight provided to an editor to make an informed editorial decision. Although scientific editors have a deep understanding of research and clinical care in pharmacotherapy, an insightful comment by a manuscript reviewer often solidifies a confident editorial decision. Our scientific editors value comments that describe how an individual manuscript will contribute to advancing the understanding of a therapeutic issue. Each of the Outstanding Reviewers for 2016 has demonstrated the above characteristics in their reviews.

The following four individuals will be recognized at the 2016 Annual Meeting as Outstanding Reviewers: Stephen Kogut, Ph.D., Rhode Island College of Pharmacy; David Nix, Pharm.D., University of Arizona; Brent Reed, Pharm.D., University of Maryland; and Jennifer Trujillo, Pharm.D., University of Colorado. These reviewers have been selfless in contributing their time and expertise to enhancing the quality of the editorial review process for *Pharmacotherapy*. The readership is encouraged to thank the 2016 Outstanding Reviewers for their contribution to the journal’s success.

The diversity of manuscript topics received by *Pharmacotherapy* requires that the database of reviewers continue to expand. For Annual Meeting attendees who are interested in becoming a manuscript reviewer for *Pharmacotherapy* or improving their skills, Stuart T. Haines, Pharm.D., one of the journal’s scientific editors, will host a session titled *Fundamentals of Providing Excellent Manuscript Peer Reviews*. The program will be presented on Tuesday, October 25, from 10:15 a.m. to 11:45 a.m. in Regency Ballroom 2. The educational content will include an overview of the peer review process and will provide experience in constructing logically organized peer review reports. Haines will cover several aspects of the peer review process that will be helpful to attendees.

Another method of recognizing reviewer service to the journal is through Publons, a service provider in the biomedical industry that partners with Wiley-Blackwell, *Pharmacotherapy*’s publisher. Reviewers now have the option of recording vital statistics about manuscript reviews submitted through ScholarOne, our publisher’s manuscript handling software, in the Publons database. Data on manuscript reviews provided to numerous journals can be recorded and collated in this central data repository, where reviewer anonymity is preserved. The value is that individual reviewers for *Pharmacotherapy* can retrieve an objective record of their participation in the editorial review process. These data should be useful in documenting one’s service activities and applying for funding and promotion. As the number of participating journals increases, Publons should be a valuable asset to reviewers. Moreover, this service provides a means for better recognizing reviewer contributions.

Providing one’s professional opinion on the quality of an unpublished manuscript, grant application, or other work of creative expression is regarded as an honor. The benefits are often subjective. *Pharmacotherapy* is working to ensure that contributors to the journal’s success receive appropriate recognition.
Call for Abstracts for the 2017 Virtual Poster Symposium

All investigators in the field of clinical pharmacy and clinical pharmacology, ACCP members and nonmembers alike, are invited to submit abstracts to be considered for presentation during the ACCP Virtual Poster Symposium, May 17–18, 2017.

Posters will be on display May 15–18 for asynchronous viewing and comment. In addition, two interactive sessions are scheduled on May 17 and May 18, when authors will be available for real-time online question-and-answer sessions alongside their virtual posters. The technology required for presenters and the poster-viewing audience is minimal—a broadband Internet connection, a current version of an Internet browser, and Skype (free software).

All abstracts accepted for presentation, except for “Encore” and “Research-in-Progress” presentations, will have full-text abstracts published online in Pharmacotherapy. Only the abstract title, authors, and original citation will be published in Pharmacotherapy for Encore presentations. All abstracts accepted in the “Original Research” category will automatically be entered in the Best Poster Award competitions.

2017 Virtual Poster Symposium Categories
Please read the following general instructions carefully because many changes have been implemented across all abstract submission categories.

Word Count: All abstract categories have a 300-word limit.

Abstracts may be submitted in one of the following categories:

Original Research: Abstract deadline: Friday, January 20, 2017, 11:59 p.m. (PST)

- Abstracts must summarize quantitative or qualitative findings from completed research. Basic, clinical, translational, dissemination/implementation, and educational research are examples of acceptable research. Topics should appeal to a clinical pharmacy audience and may include research in drug metabolism, education/pedagogy, health services, medication safety, patient/population outcomes, pharmacokinetics, pharmacodynamics, pharmacoeconomics, pharmacoepidemiology, pharmacogenomics, pharmacology, or pharmacotherapy. Abstracts reporting in vitro or animal research are welcome.
- Abstracts must be structured with the following section headers: introduction, research question or hypothesis, study design, methods, results, and conclusions.
- Abstracts will be evaluated according to the merits of the research question/hypothesis, study design, originality, methods, data analysis, results, and conclusions.
- Descriptions of planned research efforts or preliminary data will not be accepted in this category.
- To be eligible for Best Poster, Student Best Poster, or Resident/Fellow Best Poster, the abstract must fit and be submitted in this category.
- Original research findings presented elsewhere, but important to clinical pharmacy, are encouraged as Encore submissions (see Encore Presentation details below).
- A previously presented abstract may form the basis for a new abstract to be submitted for consideration in the Original Research category if the previous abstract
  1. was a descriptive report of planned research only,
  2. described preliminary results only and complete results are now available,
  3. was presented at a student, resident, or fellow conference focused on gaining presentation experience and/or formative feedback,
  4. was presented at an ACCP Chapter or PRN event, or
  5. has conclusions that have been added/modified because of a new hypothesis and data analysis of the original results database.
- A copy of the original abstract and the full citation of where/when the research was presented must accompany the submission. ACCP reserves the right to determine the extent of difference necessary to substantiate a new Original Research abstract submission.

Systematic Reviews/Meta-analyses: Abstract Deadline: Friday, January 20, 2017, 11:59 p.m. (PST)

- Abstracts must describe a systematic review adhering to the guidelines and definitions established by Preferred Reporting Items for Systematic Reviews and Meta-Analyses (PRISMA, www.prisma-statement.org/) and include the 12 items published in the PRISMA for Abstracts checklist (http://journals.plos.org/plosmedicine/).
Abstracts must be structured with the following section headers: service or program, justification/documentation, adaptability, and significance.

Abstracts will be evaluated according to the originality of the service or program, adequacy of justification/documentation, adaptability to other settings, and significance to clinical pharmacy.

Abstracts presented elsewhere, but important to clinical pharmacy, are encouraged as Encore submissions (see Encore Presentation details in the text that follows).

Advances in International Clinical Pharmacy Practice, Education, or Training: Abstract Deadline: Friday, January 20, 2017, 11:59 p.m. (PST)

Abstracts must describe the development, delivery, justification, or documentation of clinical pharmacy practice, education, or training outside the United States. Abstracts may be descriptive and need not contain an evaluative component.

Abstracts will be evaluated according to the originality of the service or program to the specific setting, adequacy of justification/documentation, adaptability to other settings, and significance to international clinical pharmacy advancement.

Abstracts presented elsewhere, but important to clinical pharmacy, are encouraged as Encore submissions (see Encore Presentation details in the text that follows).

Residents and Fellows Research-in-Progress: Abstract Deadline: Friday, January 20, 2017, 11:59 p.m. (PST)

Submission guidelines are those of an Original Research abstract except that the research effort is ongoing at the time of abstract submission.

The presenting author must be in a postgraduate training program (PGY1 or PGY2 residency, Ph.D./masters graduate degree program, or fellowship training program).

Abstracts submitted in the Research-in-Progress category are not eligible for the Resident and Fellow Best Poster competition. *Note: To be eligible for the Best Poster competition, the research must meet the criteria for and be submitted under the Original Research category, indicating that it was conducted by a resident or fellow.
Student Research-in-Progress: Abstract Deadline: Friday, January 20, 2017, 11:59 p.m. (PST)
- Submission guidelines are those of an Original Research abstract except that the research effort is ongoing at the time of abstract submission.
- The presenting author must be a first professional degree (Pharm.D. or BSPharm) student.
- Abstracts submitted in the Research-in-Progress category are not eligible for the Student Best Poster competition. *Note: To be eligible for the Best Poster competitions, the research must meet the criteria for and be submitted under the Original Research category, indicating that it was conducted by a student.

Encore Presentation: Abstract Deadline: Friday, January 20, 2017, 11:59 p.m. (PST)
- Submission and evaluation criteria are those of the Original Research, Systematic Review/Meta-analysis, Case Report, or Clinical Pharmacy Forum category, except that the same abstract was presented elsewhere or published in abstract form only before this meeting.
- Abstracts submitted for Encore presentations must not be modified from the previously presented/published version. This includes the title, authors, and abstract body. Presenting authors may change, but they must be an author on the original abstract.
- The same abstract may not be presented at more than one national ACCP event.
- Only the abstract title, authors, and original citation will be published in Pharmacotherapy.
- Encore presentations will not be eligible for the Best Poster Awards.
- Submit Encore presentation abstracts as Original Research, Systematic Review/Meta-analysis, Case Report, or Clinical Pharmacy Forum, and select “Encore,” when prompted, providing the original citation and a copy of the original abstract.

ACCP Travel Awards Given for 2016 Annual Meeting

One of the best ways for students and postgraduate trainees to experience organized clinical pharmacy in action is to participate in an ACCP national meeting.

This fall, through the generous support of individual members and the Practice and Research Networks (PRNs), 20 students and postgraduate trainees will have the opportunity to do just that at the Annual Meeting in Hollywood. Please join us in congratulating the following recipients of the ACCP Annual Meeting Travel Awards:

Resident/Fellow Travel Award Winners
Shubha Bhat
Carrie Blanchard
Leo Buckley
Cora Housley
Oksana Kucher
Wesley Kufel

Brandon Martinez
Erin McCreary
Insaf Mohammad
Adrian Wong

Student Travel Award Winners
Jeannette Bouchard
Chelsea Butler
Todd Hershberger
Mika Jankowski
Jacob Lines

Shelby Merchant
Kim Nguyen
Anesia Reticker
Maggie Stuckey-Ramirez
Amanda Van Matre

Travel awards encourage student and postgraduate trainee attendance at ACCP meetings and promote future involvement in the College. Information about the next cycle of travel awards will be available on the ACCP website next June. To qualify for a travel award, applicants must be (1) a current resident, fellow, or postgraduate trainee member of ACCP or (2) a current student member pursuing his or her first professional degree, who has completed at least one academic year in their professional pharmacy program. Applicants are required to submit an essay, a curriculum vitae, and letter(s) of recommendation from faculty members and/or preceptors.

ACCP would like to recognize the following individuals for their generous contributions to support the travel awards program. In addition, the following PRNs either contributed to ACCP travel award funds or provided their own travel awards:
Now On Sale! The ACCP Field Guide to Becoming a Standout Pharmacy Residency Candidate, Second Edition

Setting yourself apart as an exceptional candidate early in your academic career is increasingly important as a growing number of pharmacy students seek postgraduate pharmacy training. The second edition of the Field Guide offers a step-by-step approach to maximize your curricular and extracurricular experiences and best prepare you to be a standout candidate.

Written by experienced and dedicated pharmacy residency proponents, the Field Guide gives you detailed, practical information to use throughout your first, second, third, and all-important fourth years of pharmacy education—information you can use to chart your course to a successful postgraduate experience. Updated chapters such as Step I: Define and Redefine Your Goals, Step II: Making the Grade, and Step IX: Document It All join with the newest addition to the Field Guide, Step X: Plan for Financial Freedom. This new chapter, written by Timothy R. Ulbrich, Pharm.D., will help you achieve your financial and professional goals by advising you on student loans repayment, debt management, insurance, savings, and more.

The Field Guide walks you through 11 important steps to help you emerge from the crowd as a sought-after candidate:

- Step I: Define and Redefine Your Goals – Stuart T. Haines, Pharm.D.
- Step II: Making the Grade – Dana P. Hammer, Ph.D.
- Step III: Get Involved – Janet P. Engle, Pharm.D.
- Step IV: Develop Leadership and Management Abilities – Donald E. Letendre, Pharm.D., and Brandon J. Patterson, Pharm.D.
- Step V: Gain Valuable Work Experience – Stephen F. Eckel, Pharm.D.
- Step VI: Maximize Experiential Learning – Brian L. Erstad, Pharm.D., and Maryam Fazel, Pharm.D.
- Step VII: Expand Your Network – Keri A. Sims, Pharm.D.
- Step VIII: Engage in Research and Scholarship – Jerry L. Bauman, Pharm.D.

PRNs and Chapters
- Adult Medicine
- Ambulatory Care
- Cardiology
- Central Nervous System
- Clinical Administration
- Critical Care
- Drug Information
- Education and Training
- Emergency Medicine
- Endocrine and Metabolism
- Geriatrics
- GI/Liver/Nutrition
- Gulf College of Clinical Pharmacy
- Health Outcomes
- Hematology/Oncology
- Immunology/Transplantation
- Infectious Diseases
- Nephrology
- Pain and Palliative Care
- Pediatrics
- Pharmaceutical Industry
- Women’s Health

Donations to the Travel Award Fund helped support this fall’s awards and will continue to fund awards supporting student and postgraduate trainee attendance at upcoming ACCP national meetings. All donations collected by the Student Travel Award Fund and Resident/Fellow Travel Award Fund are applied directly toward attendee meeting support; no funds are used for administrative or overhead expenses. If you would like to make a tax-deductible contribution to help support future awards, please contact Jon Poynter, Senior Membership Project Manager, at jpoynter@accp.com.
The ACCP Field Guide to Becoming a Standout Pharmacy Residency Candidate, Second Edition, is your best guide to detailed and practical information on setting yourself apart as an exceptional pharmacy residency candidate.
